ABOUT ME

I am an upcoming B. Tech graduate in Computer Science Engineering with a strong foundation in backend and frontend development. Passionate about contributing to innovative projects, I thrive in collaborative environments and continuously seek to learn and adapt to new technologies. My goal is to make a meaningful impact while growing both personally and professionally within a reputable organization.

EDUCATION

B. Tech, Computer Science

Lakireddy Bali Reddy College of Engineering
CGPA: 8.9 2021-2025

Intermediate, M. P. C

Sri Gayatri Junior College
Percentage: 95.3% 2019-2021

SKILLS

Java
Python
Javascript
Data Structures & Algorithms
Springboot
Hibernate
React JS
Mysql
Mongodb
Machine Learning

PROJECTS

Whatsapp Clone

Developed a WhatsApp clone with React frontend and Spring Boot backend, incorporating WebSocket for real-time communication and robust authentication. React ensured a seamless user experience, complemented by Spring Boot's server-side capabilities, enhancing real-time messaging and user interaction.

Studenthub

Developed a Student Hub project using React for the frontend and Spring Boot for the backend. Implemented features include course management, academic resources, communication tools for queries, an event calendar, progress tracking for course completion, and quiz management with detailed reporting.

Dynamic Environmental Assessment: A Remote Sensing Analysis of Ongoing Land Use and Cover Changes in a Region

Accurate monitoring of land use changes is crucial for understanding human-environment interactions. This study uses advanced remote sensing techniques, USGS Landsat-8 imagery, GIS software, and machine learning to analyze shifts in biodiversity, industrial areas, cropping patterns, and overall land use, emphasizing the impact of limited water resources. The research highlights the importance of robust land-use planning for sustainable regional development. These insights are valuable for informed decision-making in environmental management and planning.

CERTIFICATIONS

Microsoft Azure Administrator Associate
Joy of computing using python - NPTEL
Programming in Modern C++ - NPTEL
Python Essentials - Cisco Networking Academy
Cyber Security - Cisco Networking Academy

INTERNSHIPS

AWS AICTE Virtual Internship

It offers remote learning and practical experience in Amazon Web Services technologies, focusing on cloud computing, machine learning, and data analytics.
